### Installation

The installation must be carried out only on a prepared, even surface. Installation must be performed by a qualified professional.

- Select and position the towel hook in the desired location. Measure and mark the positions of the mounting holes.
- Mounting screws are included in the package; obtain wall plugs appropriate for your wall material.
- **Note: Tighten the mounting screws manually using a screwdriver. Battery-powered and electric tools may easily damage the product.**

### Maintenance

Regular cleaning using water and mild detergents. Chlorine-based, abrasive cleaners or cleaning tools are not suitable for cleaning. The product should not be cleaned under running water or intentionally exposed to running water.

### Recycling

The product's material is wood or wood veneer. Recycling the products is straightforward. Wood waste can be converted into energy by separating it from the metal backplate. Metal parts are recycled at designated waste processing facilities where the metal is melted and reused.

### General Information About Commissioning

- Ensure that the packaging and its contents are not damaged.
- Verify that you have received all the products you ordered. Always store and transport the product in its original packaging.
- The product is approved for use only for its intended purpose. Failure to follow these instructions will void the warranty and release the manufacturer from any liability.
- The product warranty is 24 months from the date of purchase. For more information about the product, please contact us: [info@wuoma.com](mailto:info@wuoma.com)
